This session will provide an overview and hands-on experience of the self-care and mobility equipment available through the EnableNSW Equipment Centre and from NSW Government Contracts. The session will also include information about how EnableNSW interfaces with the NDIS.

Participants will learn:

- The clinical funding criteria and current processes for providing equipment through the EnableNSW Equipment Centre and NSW Government contract, to eligible people.
- What to consider when prescribing standard off-the-shelf, self-care and mobility equipment.
- The different specifications and features of stock & contract equipment including manual wheelchairs, beds and mattresses, pressure cushions, bathing and toileting equipment, and transfer aids.
- How to make simple adjustments to the equipment.
- Maintenance and care of the equipment - educating clients and their family / carers.

The primary focus for the day is hands-on experience with the equipment available.
