Eligibility

An EnableNSW application form is required to assess a person's eligibility. A new application form is required every two years **OR** if the person's circumstances change. Application forms can be accessed online at www.enable.health.nsw.gov.au/for_individuals/applying-to-EnableNSW. If we do not have an application form at the time of reviewing this request, the request may go on hold and delay the outcome.

Important information before making this request

- You must be an eligible prescriber for this type of equipment AND,
- the equipment requested must meet the applicable funding criteria.
 You can read more about this at www.enable.health.nsw.gov.au/ prescribers/forms
- You must include the relevant stock/ contract code for the equipment you are requesting.
- If you are requesting an item not available through stock/contract you must contact the EnableNSW Clinical Advisor team before submitting the request

Equipment selection and trials

Standard stock equipment from the Equipment Allocation Program (EAP) is available **statewide** and <u>does not</u> require a trial, no matter where the person lives in NSW. If an item on the online catalogue has a green 'stock' banner, you can request this item without completing a trial with the person. All stock items will have a SKUID which you can add to section **F. Equipment recommendation**. All other self-care and mobility items that <u>do not</u> have a stock banner will require a trial.
